WHAT IS THE HOPSTART PACKAGE?

Our Hopstart package is an all-inclusive package made for ferret owners. The first few months with any new pet can be daunting so this package will give you peace of mind while providing your ferret with premium veterinary care. It is designed for new ferret owners who are just starting with a baby ferret or owners of mature ferrets who just haven't had time to organise getting all their ferret's vet work done.

HOW MUCH DOES IT COST?

FEMALES: \$450

(USUAL COST IF BILLED SEPARATELY \$542)

MALES: \$400

(USUAL COST IF BILLED SEPARATELY \$507)

STERILISATION SURGERY:

Sterilisation is a very important part of preventative health care in ferrets. A number of problems can occur if your ferret is left un-sterilised including life-threatening anaemia, increased odour and unwanted behaviours. In almost all cases sterilised ferrets will bond better with their owners and other ferrets. Our Hopstart package covers the cost of the surgery, a day of hospitalisation, fluid therapy during surgery and all medications including multimodal pain relief. Your ferret will have one of our vets and a dedicated nurse to monitor them throughout the day, during surgery and on recovery to make sure they are kept comfortable and happy.

DISTEMPER VACCINATION AND HEARTWORM PROTECTION:

Ferrets can contract the deadly distemper virus and if they do there is no treatment. Vaccination provides good protection against this horrible virus. This vaccine is given annually after the initial juvenile vaccine course. Our Hopstart package includes one vaccination for your ferret. It also includes a three-month supply of heartworm medication to protect your ferret.

MICROCHIPPING AND REGISTRATION:

Microchip identification is a safe and highly effective means of identifying your pet. Microchips enable lost ferrets to be reunited with their owners. Microchip implantation and lifetime registration on the national database is included in the package.

HEALTH AND DENTAL CHECK:

Ferrets will often hide underlying illness' from their owners. Our Hopstart package includes a full health and dental check over by one of our ferret vets.

NAILS AND FOOD:

Long nails are no fun for anyone! We'll clip your ferret's nails and then send them home with a bag of recommended ferret food.
