What Is The HopStart Package?

Our HopStart package is designed for new ferret owners who are just starting with a baby ferret or owners of mature ferrets who just haven't had time to organise getting all their ferret's vet work done.

The first few months with any new pet can be daunting, so this package will give you peace of mind while providing your ferret with premium veterinary care. This is an all-inclusive package made for ferret owners.

Sterilisation

Sterilisation (desexing) is a very important part of preventative health care in ferrets. A number of problems can occur if your ferret is left unsterilised including life-threatening anaemia, increased odour and unwanted behaviours. In almost all cases, sterilised ferrets will bond better with their owners and other ferrets.

Our HopStart package covers all costs associated with either surgical sterilisation or medical sterilisation (with a hormonal implant). We can discuss both of these options with you to help decide what is best for your ferret.

Distemper Vaccination and Heartworm Prevention

Ferrets can contract Canine Distemper Virus and if they do there is no treatment. Vaccination provides good protection against this deadly virus. This vaccine is given annually after the initial juvenile vaccine course.

Our HopStart package includes one or two vaccinations for your ferret (depending on what is recommended and which HopStart level is selected). It also includes a three-month supply of heartworm prevention medication to protect your ferret.

HopStart Package Includes

Health & Dental Check

Ferrets will often hide underlying illness from their owners. Our HopStart package includes a full health and dental check by one of our ferret vets.

Microchipping & Registration

Microchip identification is a safe and highly effective means of identifying your pet. Microchips enable lost ferrets to be reunited with their owners. Microchip implantation and lifetime registration on a national database is included in the package.

Nail Clipping

Long nails are no fun for anyone! We'll clip your ferret's nails.

Food or Treats

A bag of recommended ferret food, a dietary supplement or a treat (depending on what your ferret prefers!).

The price of our Ferret HopStart package is dependent on the sex and age of your ferret. Visit our website for pricing.
